¹Varieties highlighted in blue show data from 2021 yield trial as they were not included in 2022 trial

²AVG. Yield is a three year average

³All head date and disease ratings from 2021 trial in Citra, FL, those labeled NA were either not rated or the variety was not included in the 2021 disease trial

⁴Consider using a labeled fungicide; highly susceptible to powdery mildew, leaf rust, stripe rust, or crown rust

⁵Susceptible to some Hessian fly; consider using an insecticide.

⁶Consider using a labeled fungicide appropriate for Fusarium head blight.

*Variety to be dropped from list for 2023-24.
