FOR IMMEDIATE RELEASE:

“Georgia Green Landscape Stewards Program Launches Statewide”

Georgia’s statewide sustainable landscape certification program, Georgia Green Landscape Stewards, launches March 15, 2021. This innovative program offers educational resources to homeowners and businesses across the state to encourage sustainable landscape practices on landscapes of any size. Citizens can access virtual learning tools and modules and assess and certify their landscapes free of charge. For a \$15 fee, participants can order an outdoor sign which designates their property as a Georgia Green Landscape. The program will host a presentation via Zoom on March 15th, 12-1pm to introduce interested citizens to the program and its resources. To register please email uge3039@uga.edu. This program was created by Jessica Warren, Camden County Extension Coordinator and Agriculture and Natural Resources Agent, and Martin Wunderly, Northeast District Area Water Agent. The program was created utilizing funding from a mini-grant supplied by the University of Georgia Center for Urban Agriculture. For more information please visit the Georgia Green Landscape Stewards website at <https://site.extension.uga.edu/georgiagreen/>.
