

# Helpful Tips, Guides, and Lists

## The University of Georgia

UNIVERSITY OF GEORGIA  
EXTENSION

### UGA Cooperative Extension

\*UGA Extension offers a wide variety of classes, trainings, and services for individuals, families, and health professionals.

- **SNAP-Education**

- By attending a Food Talk class, you will learn from a nutrition educator how to eat more healthfully, feed your family on a budget, and keep your food safe, and the best part, you will learn how to make a delicious new recipe and get to taste it! This program is offered through county Extension offices in Georgia. Contact your local office to see about availability in your county <https://extension.uga.edu/county-offices.html>. For general information about this program, visit the website <https://foodtalk.org/en/attend-class>. Food Talk classes are currently being held in the following counties. Contact one of the staff listed to learn how to join a class.

- **The Expanded Food and Nutrition Education Program (UGA EFNEP)**

- UGA EFNEP helps Georgia families eat better for less! Funded since 1969 by the USDA National Institute of Food and Agriculture and delivered through the University of Georgia Cooperative Extension, EFNEP offers practical nutrition and physical activity information, food safety education, food resource management strategies, and recipe demonstrations within community settings throughout the state. Contact EFNEP at 706.542.8866 or [efnep@uga.edu](mailto:efnep@uga.edu) for more information. This program is offered through county Extension offices in Georgia. Contact your local office to see about availability in your county <https://extension.uga.edu/county-offices.html>. For general information about this program, visit the website <https://ugaefnep.org/>.

- **On-Site and Telephone Consultation**

- On-site and telephone consultation is available in many situations for homeowners and consumers. UGA Extension can help you with insect, plant, and weed identification, gardening questions, and more. This is offered through county Extension offices in Georgia. Contact your local office to see about availability in your county <https://extension.uga.edu/county-offices.html>.

- **Landscape Pest Management Insect Identification**

- The purpose of this site is to help the visitor become familiar with pests and beneficial insects that commonly occur. Our insect Identification section offers information and resources about insect identification, biology, and pest management options. These resources also include beneficial texts, beneficial insects, insects on ornamentals, and insects on turf, along with helpful information and photographs of the insects. For more information on insect identification, visit the website <http://extension.uga.edu/programs-services/landscape-pest-management.html>.

- **Georgia Green Landscape Steward Program**

- The Georgia Green Landscape Steward Program is a certification for businesses and residences in Georgia. Our goal is to provide fact-based information to clientele and help them implement sustainable green practices in their landscape. Georgia landowners significantly impact natural resources, such as water, wildlife, and native plants. We can help protect these natural resources for future generations with sustainable land management practices. Georgia Green Landscape's educational components include composting, mulching, pollinator habitat, welcoming wildlife, water conservation, water quality, stormwater, invasive species, native plants, and biodiversity, which can be found here <https://site.extension.uga.edu/georgiagreen/education-components/#composting-at-home>. For more information, visit the program website <https://site.extension.uga.edu/georgiagreen/>.
