LIVE GREEN, LEAD GREEN, VOTE GREENE!

When Rebekah says she Lives Green, she means it! Green is the color of 4-H. Greene is her last name. She loves agriculture, which is often symbolized by the color green. And, her predominate Real Color is GREEN! Being a predominate green means that Rebekah will put lots of thought, preparation and planning into all of her duties in a leadership role. If challenges arise, she will take the time to seek out the best solution. Her second color blue ensures that she will take the feelings and well-being of others into consideration when making decisions that affect the organization.
