University of Georgia Horticulture Presents:
Pruning and Equipment Workshop

Program will cover the proper pruning techniques for trees and ornamentals, as well as, briefly discuss pruning fruiting plants. We will cover the when, where, and how to prune plants using certain techniques for creating a professional landscape. This program will also cover the selection and maintenance of pruning equipment including sharpening and troubleshooting equipment from hand clippers to gas powered chainsaws. There will also be a discussion on trouble shooting common problems of small engines.

Bob Westerfield, Extension Horticulturalist will be the program speaker.
