Phone: 770-288-0440

Interested in learning how solar could help your farm reduce expenses and provide power when the grid is down? Join us for an informational workshop about the Solarize Middle Georgia initiative and learn how you can bring **#solarpanels** and **#cleanenergy** to your farm and community!

Can't make it to the meeting? Please visit [www.solarizemidga.com](http://www.solarizemidga.com) for more information and to sign up for a free, no-obligation solar evaluation.

Solarize Middle Georgia is a solar PV bulk-purchasing program that allows homeowners, businesses, and non-profits in Middle Georgia counties to save on the cost of solar. The more that participate, the greater the savings.

Solarize is a national movement that started in Portland, Oregon, in 2009. Solarize Middle Georgia is the ninth solarize program in Georgia and will be followed by Solarize Roswell later this year.

**Join the movement to clean energy!**
