**Selling 74 Performance
Tested Bulls**

**Genomic Enhanced &
Parentage Verified**

Videos Available Online | Ugabeef.com

UNIVERSITY OF GEORGIA

EXTENSION

Dear beef cattle producers,

Welcome to the 65th Tifton Bull Evaluation Sale! After 84 days on test, bulls have performed extremely well, with an average daily gain of 4.67 lbs/day. All bulls have been provided with the best care by our team and each one has been given the chance to express his own genetic potential for performance and fertility. All bulls on sale have passed a breeding soundness exam, are genomic tested and parent verified. They have been observed for soundness and disposition throughout the test and only the ones deemed structurally sound and with good disposition have qualified for the sale. We have a great selection of high-quality bulls that will provide excellent genetics to your calf crop.

Please note that bulls will not be brought up to the ring but will be available for viewing in pens outside of the arena on sale day. Feel free to arrive early and take a good look at them prior to the sale. To accommodate those who can't attend in person, online bidding will be offered through LiveAuction.tv and videos will be available online at ugabeef.com beforehand.

In closing, I would like to invite you to attend our annual Tifton Beef Cattle Short Course the day before the sale (February 28th). For more information and if you have any questions on bidding, catalog data, or anything else please do not hesitate contact me. Thank you for your continued support to our program!

Warm Regards,

Francine Henry, Ph.D.

General Information

The Tifton Bull Evaluation is in its 65th year. This is an educational program for southeastern cattlemen and serves to provide a basis for comparison of their sires to those of other producers. It is managed by UGA's Animal & Dairy Science Department with the cooperation of the Georgia Cattlemen's Association.

Directions to the Bull Evaluation Center:

From North on I-75

- Take exit 78 (GA HWY 32) east 12.5 miles.
- Center will be located on your left.

From South on I-75

- Take exit 66 (Brighton Rd.) east 1 mile.
- Left on GA 125, go 11.5 miles.
- Right on GA HWY 32.
- Go 1/2 mile, center will be located on left.

GPS Address:

2347 GA HWY 32 W, Chula, GA 31733

Viewing

Bulls will not be run through the ring on sale day, but will be penned at the sale sight for close inspection. A video of each bull will run during the auction. The videos will be available prior to the sale via a link on our website.

Sale Order

Sale will begin at 12:30 p.m. The order of sale is determined by the index. The highest indexing bull sells first and is followed in descending order, regardless of breed.

Index = Average Daily Gain (ADG) during test + Weight per Day of Age (WDA) at end of test.

Eligibility for Sale

- All bulls must be genomic tested with parent verification.
- Bulls were in approximately the top 2/3 of the index for their breed.
- Unruly or unsound bulls will not be sold.
- Minimum yearling scrotal of 30 cm.
- Must pass a Breeding Soundness Exam.
- Free of the following known genetic defects: AM, NH, CA, DD, OS, & Dwarfism. The potential or carrier status of all bulls for newly identified genetic defects not listed above is disclosed to buyer in this sale catalog.

Terms and Conditions

- Each bull sells to the highest bidder.

- The auctioneer settles any dispute as to bids.
- The terms of the sale are cash or check.
- Each bull becomes the risk of the new owner as soon as sold in the auction ring. However, the staff takes every safety precaution until all cattle are loaded.
- Staff employees tend to bulls for a period of 24 hours after the sale.
- Buyers will receive a properly transferred certificate of registry at the consignor's expense. Buyers that have not received certificates within 90 days of the sale should contact sale management.
- Health certificates will be available on each bull sold. Buyers from states with special entry requirements should call 229-386-3683.
- All bulls will have a floor, selling no less than **\$2,500.**

All persons who attend this sale do so at their own risk. The owners and sponsors assume no liability, legal or otherwise, for accidents of any nature.

Announcements

Announcements made from the auction box on sale day take precedence over the printed material in this catalog and all other announcements.

Trucking

Trey Cravey, Ashburn, GA | 229-316-3344

Bull Development

Test Data Collection

All bulls were received on Oct. 6, 2022. After a 19-day diet transition period, weights were taken at 0, 28, 56, and 84 days. Hip heights were recorded at days 0 and 84.

Health & Fertility

Health is excellent. Bulls have been examined thoroughly for physical soundness, and have passed a breeding soundness exam by a licensed veterinarian.

Ration and Care

Continue developing yearling bulls with quality forages, hay, and supplemental feed. This will help ensure proper growth and performance. The feed ration formulation used in this program is available online at ugabeef.com

23. CW - Carcass Weight
24. Fat - Carcass Fat Thickness

Ultrasound Data

25. Adj Intramuscular Fat
26. Adj Ribeye Area
27. 12th Rib Fat Depth

Performance Records

Each sale-eligible bull has passed strict performance standards and has a complete record presented in the summary below the two generation pedigree.

Ultrasound Measurements

Bulls were scanned in accordance with the ILIA Lab procedures and interpretations. REA, IMF, and Fat adjustments were made to 365 days of age.

Genomic Enhanced EPDs

All bulls selling have had DNA submitted to their respective breed association for genomic evaluation and parentage verification. This increases the EPD accuracy to provide more certainty in decision making.
